

STENSJÖ VILDMARK

IN THE MIDDLE OF NOWHERE.....

IN THE MIDDLE OF SWEDEN.....

The unforgettable willow grouse

This hunt is delivered with well trained pointing dogs. In wintertime (december and january) we replace the dogs with skis. This extreme form of hunting means that each hunter travel large areas with unforgettable views of mountains and valleys to shoot willow grouse. The result depends mostly on the shooting skills and the physical fitness of the hunter. We mainly use cal .22LR, .22WM or shotguns.

Day 1

You arrive at the hunting lodge. To begin with we will see to that you get settled so that you can feel "at home". At dinner you will get all the information you need for the coming huntingdays.

Day 2 -4

All days start with a heavy breakfast and preparing a lunch pack. Thereafter the hunter will follow the handler of the dog into the wilderness, wich can include some challenging terrain.

After the hunt we will meet up in the sauna for a cold beer or two and some dried reindeer meet. In the cabin we will end the day with a dinner made of ingredients that are locally produced.

Day 5

Breakfast and departure.
